laser safety spectacle F22P1C02

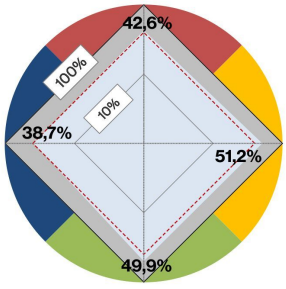

Articlenumber: F22P1C021001
GTIN: 4050369017061
Unit: 1 Stück
Weight incl. packaging 0,23 kg
Weight excl. packaging: 0,04 kg

Highlights

- LB protection ratings acc. EN 207
- Especially suitable for Nd:YAG Laser and pump diodes
- Boadband filter for dental laser
- Very good color view and high visual brightness
- It is available in the frames F18, F20, F22, F42

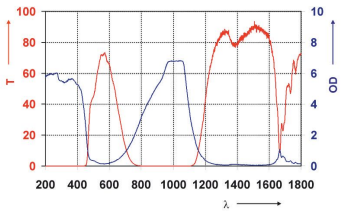

The laser safety goggle F22.P1C02.1001 with standard temples is suitable for different laser diodes (810/940/980nm) and Nd:YAG lasers. It can also be worn over prescription glasses. The continuous, single shield provides a broad field of vision without any restriction by a frame. The F22 frames' features are extremely low weight and a nearly ideal fit to every shape of head. The eyewear comes in a sustainably produced hexagonal cardboard box, along with a microfiber pouch and a cord to hang the goggles on. For a professional cleaning of laser safety spectacles laservision recommends the cleaning station (A99.CLSTA.1300).
